The Orthopedic Surgery Toolkit is comprised of articles, advisories, forms and resources, claims lessons and learning modules for orthopedic surgeons. The purpose of the toolkit is to provide resources and tools that may be helpful in reducing risks and improving patient safety related to orthopedic surgery.

This toolkit will guide orthopedic surgeons through some comprehensive tools and resources to help them practice safer medicine. Some of the topics that will be covered here are:

- Handoff/discharge
- Referrals
- Reconciling test results

- Follow-up tracking
- Call coverage
- Supervision of midlevel providers
- Clinical tracking systems
