More than 20,000 physicians and hospitals enjoy the benefits and uniquely personal experience offered by MagMutual.

In 2015, the board took more steps to increase the financial benefits of ownership:

MAGMUTUAL FOUNDATION: Our grants reflect the values of our PolicyOwners and impact the practice of medicine in the communities we serve.

OWNERS CIRCLE LOYALTY REWARDS: We set aside millions on our financial statements exclusively for our Owners Circle program. These funds are paid out upon physician retirement or other qualifying event.

As a mutual insurer, we put our PolicyOwners first, and are dedicated to improving the practice environment for both you and your patients.

This is your company and we work to not only protect you from the liability you face, but to provide you with benefits, rewards and services that will make a difference in your practice or hospital.
